EDUCATION

BCA — Cloud Tech & Information Security

VISTAS, Chennai

SSLC / 12th — CS & Mathematics

Annai Violet Matric. Hr. Sec. School

Results-oriented Full Stack Developer with hands-on internship experience designing and building scalable web applications using Angular, TypeScript, Node.js and MongoDB. Skilled in REST API development, database integration and end-to-end delivery, with a strong foundation in the SDLC and a commitment to efficient, user-focused solutions.

EXPERIENCE

- Machine Learning & Neural Engineering Intern

Inspire Softech Solutions

May – Jul 2026

Completed the AICTE Virtual Internship in ML & Neural Engineering; contributed to hands-on projects in data analysis, predictive modeling and intelligent system development.
- Angular Full Stack Developer Intern

Dofi Infosys

Jan – Jun 2026

Built responsive web apps with Angular, TypeScript and RESTful APIs — improving usability and performance across frontend engineering, backend API integration and database management.
- Python Automation & Data Analytics Intern

Inspire Softech Solutions

Nov – Dec 2025

Developed Python solutions to automate workflows and streamline repetitive tasks; expanded practical knowledge of data analysis and business-intelligence concepts.
- MERN Stack Development Intern

Novitech R&D Pvt. Ltd.

Jun – Aug 2025

Built full-stack web applications using MongoDB, Express.js, React and Node.js; handled API integration, database management and end-to-end feature development.
- Product Development Intern

Arre' Voice

Dec 2024 – Mar 2025

Supported feature implementation and product enhancements within an Agile team; participated across development, testing and continuous-improvement activities.
